Week ended June 20, 1903. Number of immigrants inspected, 592; passed, 582; detained, 10.

CHINA.

Reports from Hongkong—Plague and smallpox—Plague in Canton

Passed Assistant Surgeon McMullen reports, May 22 and 23, as follows:

During the week ended May 9, 1903, 11 vessels were inspected with an aggregate personnel of 890 crew and 629 passengers—239 cabin and 390 steerage; 734 crew and 359 steerage were bathed and 1,165 pieces baggage disinfected. Communicable diseases: Plague, 98 cases, 85 deaths (94 Chinese, 2 Portuguese, and 2 Japanese); smallpox, 11 cases, 1 death (1 American, 10 Chinese); enteric fever, 2 cases, and scarlet fever, 1 case, with no deaths.

During the week ended May 16, 1903, 8 vessels were inspected and issued bills of health, 720 crew and 557 passengers (205 cabin and 352 steerage) were inspected, and 546 crew and 346 steerage passengers were bathed and 675 pieces of baggage disinfected. There were 2 rejections during the week. During the time covered by this report there were 117 cases of plague reported, with 99 deaths. Of this number 91 occurred in the city of Victoria and 26 in districts other than the city. This number includes 1 European, 3 Indians, 2 Portuguese, 1 Malay, 3 Japanese, and 107 Chinese. One case each of diphtheria and smallpox, with no deaths, were the only other communicable diseases reported for this time. The European case of plague is the second one reported since January 1. Seven hundred and ninety-two cases of plague have been reported in the colony from January 1 to May 23, inclusive. In Canton and Amoy there is considerable plague, and in the latter place it is estimated that 50 deaths are occurring daily.

Report from Shanghai—Smallpox.

Acting Assistant Surgeon Ransom reports, May 18, as follows: During the week ended May 16, 1903, three vessels, 223 crew, and 48 cabin passengers were inspected. Two deaths from smallpox, 5 cases of enteric fever, and 5 deaths from diphtheria. The total mortality is said to have been 4 foreigners and 131 natives.

COLOMBIA.
